

**TOSKANI MED**  
PASSION FOR SKIN®

FILL & CARE®

## Who are we?

TOSKANIMED is the medical brand of the pharmaceutical laboratory TOSKANI which, with more than 36 years of experience in the field of aesthetic medicine and present in over 70 countries, specializes in medical and cosmetic products designed entirely for medical-aesthetic treatments.

“

**To be market leader  
with innovative ingredients  
such as biomimetic peptides,  
liposomes and medical grade  
hyaluronic acid.**

”

### MISSION

TOSKANIMED provides medical professionals with the products they need to perform the safest, most effective and efficient treatments.

Our goal is to provide comprehensive and innovative skin care solutions to professionals in the field of aesthetic medicine.

### WHAT DRIVES US

- + **Pharmaceutical quality** in the active ingredients of our products and total quality in all company processes.
- + **Innovation** in formulas designed and developed to achieve comprehensive solutions based on advanced technology active ingredients (biomimetic peptides, liposomes, 3,000 kDa hyaluronic acid...).
- + **Safety.** All our products are subject to the most exhaustive controls, making their application effective for the medical professional and safe for the patient.
- + **Efficacy.** The results of years-long clinical studies support the efficacy of our products.
- + **Respect** above all for medical professionals, customers and patients.
- + **Sustainability** and care for the environment.

# SKIN Architect Fillers

After more than five years of research and development, **TOSKANIMED** has created a complete range of acid hyaluronic dermal fillers with a molecular weight of 3,000 kDa.

We always have the objective of offering the best solutions for skin care, not only from the aesthetic point of view, but also with a concern for health and beauty.

At TOSKANIMED we are committed to naturalness, well-balanced shapes and harmonious lines, which is why, from our Barcelona-based laboratory, we have carefully developed a range of state-of-the-art injectables of cross-linked hyaluronic acid from a biotechnological origin.

This range is fully adapted to our proposal of treatment and integral skin care, inspired by our **Mesosynergy®** methodology that provides harmony and synergy adapting to all skin types and can be combined with different medical techniques to achieve the best results.

“

**At TOSKANIMED we are committed to naturalness, balanced shapes and harmonious lines.**

”

# FILL & CARE® by TOSKANIMED®

**Skin Architect** dermal fillers are made with high purity hyaluronic acid that can be applied to any area\*.

With a transparent gel texture, they provide firmness and hydration, adapting perfectly to each skin type and immediately restoring radiance and elasticity.

\*except in the periocular zone.

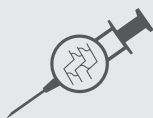

#### **Very high molecular weight.**

Hyaluronic acid with a molecular weight of 3,000 kDa, the closest to that found naturally in the dermis.<sup>1</sup>

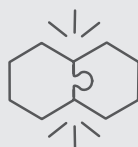

#### **Durability.**

A larger molecule degrades slower due to its larger size & smaller surface area in contact with the surface and the hyaluronidases. On the other hand, due to the result of the crosslinking process of the fillers, degradation will be uniform and constant.

#### **A concentration for every need.**

The Skin Architect Fillers range consists of 3 products with different concentrations to offer a suitable solution for every need, every area and every patient.

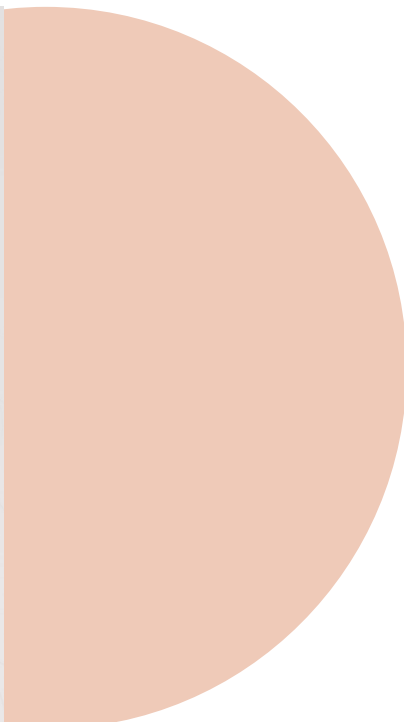

#### **High biocompatibility.**

The composition of Skin Architect Fillers is characterised by hyaluronic acid with a very high molecular weight (3,000 kDa) and low concentration of BDDE.

#### **Maximum safety.**

Skin Architect fillers is a range of injectable products with CE marking.

# SKIN Architect **Filler Sublime 20** mg/ml

**Suitable for treating wrinkles, expression lines and folds around the mouth.**

## **Application:**

It can be applied to both the superficial layer of the dermis and the middle layer.

## **Indications:**

- Perioral wrinkles, lip outline and lip volume
- Fine and shallow wrinkles

## **Technical specifications:**

Concentration: 20 mg/ml

Syringe 1 ml

2 x 27G 1/2"

Cross-linking degree: 2.22%  
Cross-linking agent: BDDE

Average treatment duration  
12 months

# SKIN Architect Filler Density 23 mg/ml

The main function is to correct moderate and deep wrinkles, folds in the skin and lip contouring.

## Application:

It is applied to the deep layer of the dermis.

## Indications:

- Medium-depth wrinkles
- Nasolabial folds

- Lip contouring
- Lips (lip tubercle included)
- Hands rejuvenation

## **Technical specifications:**

Concentration: 26 mg/ml

Syringe 1 ml

2 x 27G 1/2"

Cross-linking degree: 1.71%  
Cross-linking agent: BDDE

Average treatment duration  
12 months

# Results

## PERIORAL ZONE

Age: 53

*TOSKANIMED Clinical Case n°I.S\_114 performed by Dr. Sergei Ostapchuk*

Before

15 days after 1st session

Patient on whom 3 syringes were injected: 2 Skin Architect Density for the nasolabial fold and lip corners and 1 Skin Architect Sublime for the upper lip profiling.

Age: 38

*TOSKANIMED Clinical Case n° NDA\_26 performed by Dr. Enrique Lorente*

Before

3 months after the 1st session

Patient on whom 2 syringes of Skin Architect Volume and 1 of Skin Architect Density were injected for the nasolabial fold and for the lower lip profiling.

## HANDS

**Age:** 73

*TOSKANIMED Clinical Case n° G.T\_72 performed by Dr. Mario Goisis*

Before

Immediately after of the 1st session

Patient on whom 4 syringes of Skin Architect Density were injected. Cannula application.

## MASCULINISATION & RHINOMODELATION

**Age:** 33

*TOSKANIMED Clinical Case n° B.J\_267 performed by Dr. Mario Goisis*

Before

1st session

Before

1st session

Patient on whom 8 syringes were applied:

- 1 syringe of Skin Architect Density for Rhinomodelation
- 7 syringes for Masculinisation: 4 syringes of Skin Architect Volume and 1 syringe of Skin Architect Density for the mandibular arch. 2 syringes for the chin area.

# POST-TREATMENT CARE

Medical cosmetics that aid recovery after medical and cosmetic interventions.

## AFTER Cream

Local-action cream with cannabidiol (CBD), vitamin K and Arnica montana that helps reduce bruises and redness post-medical-aesthetic intervention.

**+ Arnica + Vit K**

**50 ml / 1.69 fl oz**

## SKIN Architect Mesoserum

Highly-concentrated ingredients mesoserum to reduce the visible effects of aging, providing a powerful nourishing effect.

**Active ingredients:**

DMAE, L-Carnitine, Hyaluronic Acid, Natural Collagen, Elastin, Organic Silicon, Acetyl Hexapeptide-8 and Vitamin A.

**30 ml / 1.01 fl oz**

## SKIN Architect Cream

Moisturizing and nourishing anti-aging cream that helps to enhance and prolong the results of medical-aesthetic procedures.

**Active ingredients:**

DMAE, L-Carnitine, Hyaluronic Acid, Natural Collagen, Elastin, Organic Silicon, Acetyl Hexapeptide-8, Shea Butter and Vitamin A.

**50 ml / 1.69 fl oz**

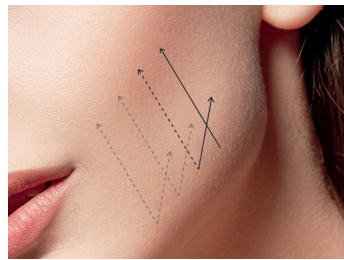

# Application techniques

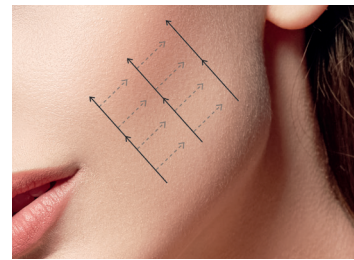

## BIOREINFORCEMENT PATTERNS

Cell technique  
of bioreinforcement

Linear technique  
of bioreinforcement

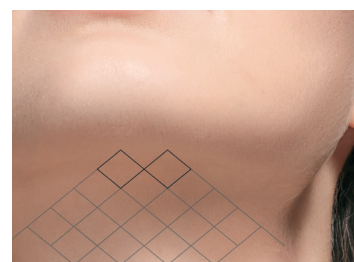

Criss-cross technique  
of bioreinforcement

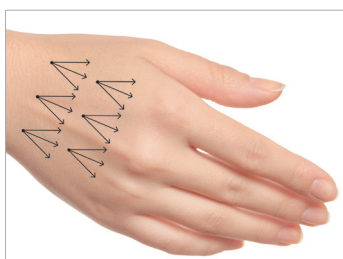

Fanning technique  
of bioreinforcement

Zigzag technique  
of bioreinforcement

Correction of ptosis  
in the chin area

Hand volumizing technique  
with needle

Filling technique of the  
hands with cannula

Rhynomodelation
